Some of you people are being careless with your move orders. Deadline for Fall 1902 orders is May 24 at noon at 423 North Main, Bellevue, Mich. 49021.

4000 AD

Some of you are making it difficult for me (like not listing home system), but everyone submitted Fall moves so we can get a year out of the way. I have tentatively decided not to announce alliances unless such announcement is needed to explain action in the game. I will notify the parties named in the alliance, however. Does anyone think this should be handled differently?

Germany places U in Italy. Britain places U in France. Deadline for 1940 placements is same as for 4000AD. I have no one on my replacement list, but I hope someone from the other game will volunteer. If someone does, and someone requests a delay in that case, I will extend the deadline.
